

State Finals - 11/25/00

3.1 miles @ Woodward Park, Fresno

Boys Division 1

Caught just after his big Division I win, the local star Duke was ecstatic, "Oh my gosh, this is the greatest feeling! This is the greatest day ever! I thought I was out of it with a mile to go, but just dug down and found something." Asked about some of his frustration the last prep season or two in track and cross-country, he added, "This kind of makes up for all of that. I didn't qualify for the State Meet in track, and just put everything I could into it since then. They passed me during the race the same place they did last year, and I gave up then. This year I just ran until I couldn't run anymore." Asked the difference in him between last year and this, JJ added, "I think I'm much stronger this year. I don't have to go out and run every race as hard as I can. I can wait, just run with the pack, and make my moves as I need to make them."

Asked about tactics for this race, JJ stated, "I wanted to stay with people early, then try to pull away near the end." Through his brain the last quarter mile, "I was hurting so bad, I thought 'oh please, let me win.'" As for next year, "I do not know, I'm looking at Cal Poly and Arizona State right now." Next weekend at the Foot Locker Regionals, "I think I am a little more confident this year going into that race. Last year I was sick and collapsed and did not finish, so anything will be an improvement."

#### Boys Division 2

Leal absolutely crashed at the finish line, staggering through the chute with his Coach's assistance, but seemed to recover amazingly quick. The sophomore, when asked about strategy, indicated, "Run hard and stay with the leaders." Interesting answers came to questions, when did you take the lead? "I don't remember." Do you remember your mile or 2 mile times, "Nope!" Asked how he felt at the finish line, he replied, "Like crap!" When asked why he appeared to give it 110% this week, he added, "It was probably because of Carl (Dambkowski of Granada Livermore)." Asked about their rivalry, he said, "We had a great race at NCS, and I wanted to beat him here."

#### Boys Division 3

Runner-up last year in the State Meet, and after a bit of a frustrating Track season due to injury, Stuart Eastman of the same school that supplied Lindsey Hyatt, the top 800 meter runner of the last few years, emerged a winner this year at Division III. Very excited, and fatigued after the contest, we caught up with the three second winner just out of the chute. Asked about his race, he said, "I was just ahead of the pack after the mile mark, then slipped to third place I think at two miles. I ran strong over the last mile and was finally able to pull away and win. This is tremendously exciting for me today."

#### Boys Division 4

When caught after his great effort, Ryan Hall related that his goal was to go after the 14:38 Course Record, but a two mile split in the mid-9:30's made him realize that it would not happen this day. He wanted to be 4:35 at the mile and 9:20 at the two mile, but was 4:42 and mid 9:30's. When asked if a lack of company was a problem when going for a record, Hall replied that he was used to running out in front and is capable of pushing himself very hard with no company around. When asked to compare his effort last weekend at Mt. SAC, where he took down an over twenty year old record with a 14:28 effort, he stated, "If I had more chances to run this course I think I could run a lot faster. I am very experienced at Mt. SAC and know when to push and work that course, and I do not have that background here." He added that this was another

very positive part of his 2000 cross-country experience. When asked if it was positive enough to continue his racing next week in the Foot Locker Regional, he added, "I will decide in a couple of days if I will run next weekend at Mt. SAC in the competition there."

Jim White (McFarland Coach)

When asked if this was his top team ever, Coach White said, "Probably, a very strong probably." When asked about their domination of this race today, he added, "I do not really know, I kind of lose focus on the other teams when I watch my own athletes." This is McFarland's Eighth team title during White's tenure since the State Meet started at the Central Valley farming community school.

Boys Division 5

Part of the great "lean at the finish" along with Tom Kubler of Viewpoint, we caught up with Tim at the end of the chute right after the finish. No one really knew who won the race. We asked Tim about his start, where he came past the mile a bit behind a leading group of four. Tim commented, "I caught them about a mile and a half. I did not plan a real fast start, but was able to catch up to the leaders by the time we went up the hill (before two miles). After two miles we battled back and forth, and it came right down to the end, where I am not sure who really won." Asked about strategy, Tim added, "I wanted to run a fast third mile, and run a slower first mile, but try to stay close to the front pack." When asked if he felt his tactics had turned out perfect (again, neither Tim nor anyone at this point knew the official result), he replied, "I hope so!" When asked if he had ever worked on his lean at the finish, he replied without a moment's hesitation, "No."

Tom Kubler (Viewpoint)

The other half of the "lean at the finish" group, Kubler was asked who won, to which he replied, "I don't know!!!" When he was questioned about leaning at the finish, he mentioned, "I think Tim leaned too early, all I did was try to duck my head at the finish. My body was really tightening up near the end of the race!" When asked how the race developed, Tom indicated, "I was surprised that anyone could stay with Henry and myself (referring to Nelson). The three of us (Kubler, Hagenbuch, and Nelson) separated from the pack, while I expected just two of us (himself and Hagenbuch). We (Kubler-Nelson) separated from Henry at the wooden posts during the last mile. I planned on a good finish over the last half mile, with a steady build-up over that distance." When asked what he thought over the final 150 yards of the race, he quickly replied, "Gosh, he's still there!"

#### Girls Division 1

Right after her race, Anita related some items to us. When asked how she felt, she said, "I felt great, I felt like I was flying out there." When questioned about tactics the last two weekends that seemed to have her going out harder than in some earlier races this year, she stated, "My coach wants me to practice getting out a little harder. I wanted to go out at 5:20 today, and think I was 5:21 at that mile point." When asked when she separated from the field, she related, "I had some real problems at the start. I was pushed by someone and fell to the back of the pack. One of the Murrieta Vailey Girls saw me there and told me by name to push my way through. After we went through the parking lot I finally was able to get into my normal stride, and eventually made my way up to the lead, and I never saw anyone after that."

When asked about the next two weekends she emphasized the importance of qualifying next weekend. Having been to the Foot Locker Nationals last year she was asked about how she would approach that course strategically this time around if she is there. "I think the tactics that I used there last year were fine. It was a very fast first mile and it was okay for me. I think I was back at nineteenth place the first mile last year at Nationals, but it was still a fast first mile for me."

Alicia Craig, the impressive Wyoming winner of the Great American Cross-Country Festival in North Carolina is in the eyes of many the other outstanding runner in the country this Fall. Anita indicated, "I have a lot of respect for her. She trains very hard, and she is a very modest and nice person. I know her well. We talk through e-mail a few times, and took our recruiting trip to Stanford together and we spent most of the time there together (Craig has already signed at Stanford). There are a lot of other girls in the country who can run really fast, the girl Britton in Florida who ran really fast in her state meet."

When asked about College choices, she replied, "Stanford is my top choice!" Asked about decision-time on that issue, "I do not know when I will decide finally."

#### Girls Division 2

Asked immediately after her race what it felt like to win a fourth straight State individual title (she is the only athlete in state history to do that), Sara said, "Thank God, as I knew I could not do all this on my own. This is my last race in a Montgomery High School Cross-Country uniform and I am so excited!" Asked about her seasonal record against local rival Amber Trotter (second here) and tactics coming in, Sara indicated, "She has beaten me the last two races we have run against each other. I knew I wanted this race more than either of those. I knew that I could win it if I really wanted to. I had to stay with her and I feel real good about my kick."

Bei's tactics here, where she went out hard with Trotter and the other leaders was a bit different than the way she ran some

important races during the season, such as Mt. SAC, which featured a casual start, and charge over the last half of the event. "It was tough to go out hard here, because I am not used to it." Asked about next week and Foot Locker, Sara replied, "This was the race I wanted more than anything. Hopefully I'll still be on a streak, but if not, this is still awesome!" When asked about college choices, she added, "It's kind of wide open now. I thought I had it figured out, but things change."

We told her it was the highlight of the day for us, which it was, with her need to get out aggressively against a very talented rival, deal with the confidence issues in this sport that probably started for her a year ago with a non-qualification for the Foot Locker Nationals after leading early in the Regional, and press through the ever-present pain barrier to race her best ever time here at Woodward Park, the kind of material that keeps most of us coming back for more of this great sport. She leaves a bit of history behind as the only athlete ever to take four state titles individually, but Sara Bei will be remembered by most of us in this activity equally for her personal characteristics that include all of those one would deem ideal for a young person her age. Her family, coach, school, and community should be so proud. The emergence of stars such as Julia Stamps, Trina Cox, Sara, with the continued string to stars that includes individuals such as Jenny Aldridge, leave us still wondering what is in the water in that neck of the woods. There could not have been a better close for the day!

### Girls Division 3

**When asked what it felt like to be a state champion in her first season of high school running, she said, "Oh my gosh, I never felt so much excitement in my whole life!" When asked how much running she had done before high school she said, "I have run youth track since the fourth grade. When I went to junior high school I ran during their seasons there. I ran for the Ojai Road Runners and my junior high team which had some meets against other schools during the year" When asked what her best mile was in junior high she replied, "I really do not remember. I think for two miles I ran about 12:30." When asked where she gained her confidence for this race as a relative novice at high school competition, she added, "I received a lot of confidence from my teammates. They told me that I had been winning almost all of the races I had been in this year, and I knew I had to do it for the team. I ran harder than last week as I had more competition than in our Section Finals race."**

#### Girls Division 4

When asked what it felt like to be a State Champion, Bridget replied, "I feel so happy, it's so great to finally win the State Meet. I finished second last year, and that was very hard, but it gave me something to shoot for this year." When asked if she realized that no one was really close to her at the end, she stated, "I had no real idea where anyone was behind me. I knew I had a little margin because I could not hear anyone near the end, but you never know who will come back on you." When asked if she was surprised to win, she added, "I didn't really know too many people in my race, but I figured it would come down to me and a couple of other people. I really did not expect people to give me such a hard time for the first two miles, it was really tough. We separated from the pack a bit (Kristen Browning and herself), but I was not sure how close the others were behind us." When asked when she felt she could win the race, Bridget said, "After the hills I felt that I could win the race."

#### Girls Division 5

Discussing tactics with the press after her race, Clara indicated, "My Coach had planned two surges for me during the race. However, I was pretty tired and said to myself 'there is no way that I can do that second surge' during the last part of the race. My coach is very confident about me making Nationals next week and we wanted to work on surges as a part of the tactics to use in the Regionals." Asked about breaking the Divisional Record at the State course, she stated, "All season long I had been breaking the course records held by the girl who had the state record, so I figured that I could do it. I wanted to run 17:30 today, but with no one around for competition I was happy with what I raced.. When there are people watching you and cheering you on it really helps you out."

The talkative Horowitz commented on difficulties with defending a title: "I think the worst thing you can do is to not win a race that you took the year before. The first thing I thought when I cross the finish line last year was 'oh-oh, I'd better win this thing again next year.' The first thing I thought this year is the same thing! My coach has me on lower mileage than I would like to run, and I would like to get up to sixty miles per week next summer in preparation. My coaches are Steve Ruegg and Steve Gregg I have great confidence in my coaches."

Asked about next week in the Foot Locker Regionals, Clara answered, "My personal goal is to get in the top twelve next week, and it would be really great to make it in the top eight (to go to Nationals)." Clara was sixth in the Great American Cross-Country meet in North Carolina in September, an indicator of ability to qualify for any National Championships.
